

LOWERING COSTS FOR VIRGINIANS

JAY JONES
FOR ATTORNEY GENERAL

Dear Virginians,

As the father of two young boys, I know how tough it's gotten to keep up with rising costs. From groceries to utility bills to health care, families are stretched thin while corporations and their allies in government put profits first.

As an Assistant Attorney General in Washington, D.C., I took on major financial institutions and housing conglomerates, and helped stop an anti-competitive merger to lower grocery costs; as a Delegate, I fought for lower utility bills and to stop Virginia's largest utility monopoly from unfairly passing on costs to ratepayers.

Meanwhile, Jason Miyares puts his corporate donors' profits before your rights. He's taken over \$1.2 million from our largest utility monopoly while they raise your rates. He's received hundreds of thousands in contributions from corporate landlords and developers and repeatedly let them off the hook when they've ripped off Virginians.

As Attorney General, I will be laser-focused on bringing down costs, and I will use the weight of my office to hold the federal government, massive corporations, and bad actors accountable.

LOWERING COSTS AND PROTECTING CONSUMERS

- **Crack down on corporate price gouging**, junk fees, and predatory debt collection so Virginians keep more of their paychecks.
- **Take on utility monopolies** that pass unnecessary costs and fees onto Virginians in order to pocket excess profits.
- **Hold scammers and fraudsters accountable**, from online networks preying on seniors to contractors defrauding taxpayers.

MAKING HEALTH CARE AFFORDABLE AND FAIR

- **Prosecute pharmaceutical companies** that collude to fix prices or engage in anti-competitive practices to intentionally raise prices for life-saving medicines.
- **Crack down on Pharmacy Benefit Managers** to create transparency and ensure all negotiated rebates are passed directly to consumers.
- **Investigate private equity takeovers** of health care industries and facilities that cut care while raising prices.
- **Hold insurance companies accountable** to deliver care Virginians are paying for and keep costs low.

PROTECTING VIRGINIANS AT HOME AND WORK

- **Enforce housing fairness** to stop corporate landlords and real estate companies from engaging in surveillance pricing, price gouging, discrimination, and unsafe conditions.
- **Prosecute fraudulent housing contractors** and support efforts to create more local affordable housing units.
- **Rebuild the Worker Protection Unit** to fight wage theft, end abusive non-compete agreements, and hold corporations accountable who cheat their workers.
